Danish FHIR Hackathon 2026

Registration is OPEN! - Register by 15 September

Join us in Odense, Denmark on **6 October 2026** for a hands-on hackathon exploring how **FHIR, AI and health data** can be used to make solutions. [Read more about the tracks and event!](#)

-  **Agentic Patient Access** led by Jens Kristian Villadsen
Explore how AI agents can help patients access health data beyond existing FHIR APIs.
-  **Telemedicine** led by Kirstine Rosenbeck Gøeg
Get hands-on with FHIR and build a telemonitoring pathway for mental health — **no prior FHIR experience required.**
-  **Your Health, Your Data** led by Jacob Andersen
Build the foundations of a personal health dataspace where citizens can collect, manage and share their health data.

Pick your track. Come prepared, build, experiment, collaborate, and have fun!
